MINUTES OF MEETING
BOARD OF SELECTMEN

Date: Wednesday, March 26, 1958 - 7 p.m.

The Board met at 7 p.m. All members were present.

The Town Accountant, Fred L. Baker, appeared with the warrant. The Veterans Agent's bill was deducted from the warrant in the amount of \$219.48. The amount of warrant approved--\$61,714.49.

At 8 p.m. Chief Frank Mattioli appeared with his regular report. The third police officer discussed. Selectman Burke questioned the need of a third man. Mr. Burke was of the opinion that the so-called third man was the three men in addition to the Chief. Then it was explained that it would mean two men in addition to the Chief. Mr. Burke was in accord with appointing another regular patrolman to the police force. It was also discussed and agreed upon that applicants should have a physical examination before any applicant would be considered for the opening.

Fire Chief Boland appeared at 8:40 and gave a brief report.

Richard Hunt and Sup't. of Streets appeared at 9 p.m. Mr. Hunt reported that children were getting into the old cattle crossing that goes under Woodland Road and that it was dangerous because of the water, glass, etc., that is in the underground channel. Selectman to look into it. Selectman Burke reported that a stove at the Peters High School that was bought in 1947 is not being used any more. The Southville Federated Church would like to purchase it. It was voted to instruct the School Committee to sell the stove for \$1.00.

Applications from Mr. Richard Hunt and Mr. Charles L. Philbrick received, applying for the appointment to the police force as a regular patrolman.

A request from the Corland Club for permission to show movies on Sundays was received. It was agreed that this would be covered by a regular entertainment license either yearly or as needed.

Selectman Burke to contact Mr. David Aldrich relative to the salary wage scale to see if all step rates would go in effect as of April first. (Step rates and adjustments as voted at the March Town Meeting.)

Selectman Hill also to make arrangements for a stenographer to be present on April 2, 1958, to take shorthand notes of the meeting.

MINUTES OF MEETING (Special)
BOARD OF SELECTMEN

Date: Saturday, March 29, 1958 - 9:30 A.M.

The Board of Selectmen met with the Sup't. of Streets at the Highway Shed to look over the various pieces of equipment. Other than one or two minor things, all equipment found to be in very good condition. The Sup't. of Streets stated that most all the equipment would be painted this summer. He suggested that all equipment be painted alike.

The Board and Sup't. of Streets then went to Atwood Street to see about installing lights on that Street. It was decided to install lights on Pole #6 and Pole #7. The Board also investigated the drainage condition on Southville Road on the Welch property. Margaret Welch had complained that the drain was stopped up. The pipe under the road was found to be absolutely dry. Miss Welch stated that before the road was built, they had very little water in their cellar--about an inch or two--but, since, the road was built and raised. She now sets a foot or more of water at rainy seasons and especially at this time of year when there is a heavy run off from snow. It is the opinion of the Board and the Sup't. of Streets that the condition is not caused entirely from the construction of the road but it is caused from the high water table as a result from drainage from the hill at the rear of the house. However, it was decided to have the engineer from the Dep't. of Public Works look at the condition to see if he has a solution to the problem. The run off drain through the field south of the road needs to be lowered and piped. A possible solution would be to lower the pipe across the road to a depth a foot or more lower than the Welch cellar floor and to install a large dry well on the North side of the road to pick of drainage from the hill. This would be a costly item and should not be undertaken without the advice of an engineer.

The Cattle Crossing on Woodland Road was investigated and it was decided to have the Highway close off the East end of the tunnel. The West end is already stopped up.

The drainage condition at the intersection of View Hill and Breakneck Hill Roads was investigated and found to be in very poor condition. The drainage system seems to be filled with water, due to the fact that no outlet to the system was provided when the drainage system was installed. The Sup't. of Streets was given permission to change the man hole and run a pipe underneath the road in a north-westerly direction approximately 50 feet and to empty onto Town property.

The stump in the sidewalk in front of the Central Street Market was looked at and it was decided to cut the stump below the surface and cover with hot top.

The stump near Mr. LaNinfa's property on Main Street was also investigated and found to be partly on Town property and private property. However, it is the opinion of the Board that when Town trees were removed that conflict with sidewalks and private property, the stumps should also be removed in the same operation. The Tree Warden is being called in to a future Selectmen's Meeting to discuss this problem.

Woodland Road, where the Road was dug up for the laying of water pipes under contract by Perini & Sons in 1957, was investigated and it was decided that road condition was such that it was all right to release the performance bond held by the Town re Perini & Sons.

The Sup't. of Streets was instructed to get the approximate cost to install drainage on the Hubley property from Highland Street across Southville Road.

The meeting ended at 12:40 noon.

MINUTES OF MEETING
BOARD OF SELECTMEN

April 2, 1958

Mr. Allen, Judy Bauld, Richard Ostrich, Henrietta Austerland appeared and wanted approval for a Citizen's Educational Project Questionnaire. The purpose of the questionnaire was to find out why more voters were not at the town meetings. The Freshmen class will take it upon themselves to make a house to house campaign. When complete, they will let the Board know the results. The Selectmen will write to the President of the Freshmen class approving the project and commending their undertaking it.

Mr. Bill Salmon appeared relative to extending the Hillside Avenue. Henry Adams, Mr. Burke and Leo Pessini will view this Street on Saturday, April 9, 1958, and report back to the Selectmen's meeting on Wed. 4/9/58.

Mr. Murphy from the Veterans' Agency appeared and a discussion was held concerning the budget. Mr. Hill stated that they would be willing to approve the budget if it did not exceed \$147 for administration expenses. After than the Selectmen could not approve it. A note will be sent to the town accountant to the effect. Mr. Hill suggested that Mr. Murphy keep a record of his expenses and start thinking what should be put in for next year.

Chief Mattioli and Hank Pietrasiak entered. Next appeared Mrs. Hilton, owner of Club 85 and Mr. Drago, bartender at Club 85. Mr. Hill stated that some time ago the Police Department came to the Selectmen with a complaint about Club 85. Mr. Drago had accused Mr. Pietrasiak of drinking while on duty, at Club 85. Shortly after that Mr. Drago went to the Chief and said it was all a mistake. Mrs. Hilton stated that the Marlboro cruiser parks outside and the customers do not come in. They contacted the Marlboro Police and asked them not to stay there. They suggested parking on the side of the road, so that customers could come in and go out. Mrs. Hilton then stated that no one complained about the Southboro Police, that Club 85 was never open after 1 o'clock and that there never was any reason to call the police.

Mr. Hill then asked Mr. Drago if he had accused Patrolman Pietrasiak of drinking while on duty. Mr. Drago stated that he did not remember and did not know what it was all about.

Mrs. Hilton could not understand why she and Mr. Drago were called to this meeting. Mr. Burke explained that the Board agreed that they should have the Chief and Officer, in question, Mr. Drago and Mrs. Hilton in to find out if there was any truth to the statements made. If not, the Southboro police were due for an apology. Mrs. Hilton said that she had no complaints and that the Southboro police "are for us." Mr. Drago stated that he wanted to cooperate with the Southboro police, that there were no fights and that it was the Marlboro police who parked on Sears Road which was bad for business. Mr. Hill stated that a case like that should be brought to the Chief of Police in Marlboro. Mr. Drago was again asked if Mr. Pietrasiak at any time was drinking while on duty. Mr. Drago stated that he was not.

The Chief, Mr. Pietrasiak and Mr. Drago were then asked to step outside. A discussion was then held with Mrs. Hilton as to the personal characteristics of Mr. Drago and why she was not serving food at the Club. At the time the license was given she was serving food and the Board of Selectmen thought that she was just going to add liquor. Mr. Burke then stated that a lot of complaints had been received from people about Club 85. Mrs. Hilton stated that she thought she was running a nice place. There were no fights, no drinks after 1 o'clock and she was very careful on I.D.'s.

Mr. Howard Merrill then entered to give a report of the fence viewers. In September he and the other fence viewers received a letter from Mr. Kiley. It was held for a while and no action was taken. Mr. Merrill contacted the other fence viewers to do something about it but could not make a date with Mr. Stossell but Mr. Johnson and he talked to Mr. Kiley and Mr. Harris. Mr. Harris and Mr. Kiley have two opinions as to where the line on the land in question should be. According to the deed Mr. Kiley is right. It was subdivided 30 years ago and at that time a fence was erected on Mr. Kiley's land. Mr. Harris and the former owner have been using the property for over 40 years so it gives them the right to that land according to state law. Mr. Kiley has copies of the tract of land in question and the deed. It was left that Mr. Harris would get a copy of his deed from the Bank in Boston. To Mr. Merrill's knowledge, nothing was carried through. No further action has been taken.

Mr. Hill suggested that the committee determine the boundary and if Mr. Harris and Mr. Kiley want to question further, they may. Mr. Merrill felt that he did not have the authority to do this as he was not chairman and no chairman had been appointed. Mr. Hill suggested that Mr. Merrill get a majority vote of the committee to approve and if Mr. Kiley or Mr. Harris are not satisfied, they can take it further. They should meet with Mr. Kiley and tell him the decision and tell him that they could not possibly make any other decision. Mr. Merrill stated that Mr. Kiley wants to give a portion to his son and would like to know where the line is. Mr. Merrill also said that he would pursue it further and that he is convinced that with the existing fence and the fact that Mr. Harris has been using it for 30 years that he stands a better chance of getting it. Mr. Merrill then left.

Mr. Burke stated that he had called Mr. David Aldrich and asked him about sending through approval to the Board of Selectmen for action taken in town meeting and stating the hourly pay. He said that it would be taken care of and the Board would get a copy. A copy has already been sent to the town accountant.

Mr. Burke stated that he had an estimate on a sound system for the town hall. The sound system and public address system with one speaker and one upright mike and one traveling mike for the floor would be \$350. He could get the whole set for \$200-\$250. He stated that he could get a projector for \$160 which sells for \$200.

Mr. Burke then stated that there was a new man working on the Highway Department who is not approved. Mr. Hill said that he should be approved by the Salary Board before he can work full-time. Mr. Burke made a motion that the Highway Department come in and talk with the Board of Selectmen to try and straighten things out. Mr. Hill said the trouble is that the Superintendent of Streets is doing too much talking with the men and taking too much back talk. Mr. Burke suggested having a talk with Mr. Pessini and withdrew his motion to speak with the whole Highway Dep't.

It was decided to take up this problem at the next meeting.

Papers were signed approving changes in traffic and stop signs in existing vote in accordance with letter of April 2, 1958 at Cordaville Road and East Main Street.

The Board voted to release the Automobile Mutual Insurance Company of America and the Factory Mutual Liability Insurance Company of America and discharge said payor, his heirs, executors, administrators, successors and assigns from any and all actions, causes of actions, debts, claims and demands of every name and nature both in law and in equity against said payor. This was relative to damage of one of the trucks to the traffic island in Fayville.

A check was received from Harvey D. Bigelow for a zoning permit to build on Walnut Hill Road.

A zoning application was received from Jean Maley, Winchester Street. The application form is being sent out to various departments for their approval.

Estimates were received to fix the chevrolet truck. Mr. Burke made a motion to send the chevrolet highway truck to Keith's to have the body repaired without painting. Mr. Adams seconded the motion.

Estimates were received from Shock Auto Body, Framingham, for certain repairs to the chevrolet 2-ton truck in the amount of \$165.15. Also estimate from Al's Auto Body Shop, Turnpike Road, Southboro, in the amount of \$152. It was decided not to have re-finishing done and the bid was given to Al's Auto Body Shop in the amount of \$115 for the repairs.

Voted-Plan of Worcester County Electric Company for Pole relocation in accordance with their plan #89 dated 2-27-58.

The Minutes of the last meeting and the meeting on March 29, 1958, were read.

The possibility of purchasing new Highway Equipment, through Civil Defense, discussed. Sup't. Pessini reported that he had been advised by our Civil Defense Director, Mr. Homer L. Pessini stated that he could go up Breakneck Hill Road to the brook that runs through the Mauro property, and install one (1) catch basin, that the cost of doing this work cannot come out of Chapter 81, but that the cost of doing the drainage work on Clifford Street may come out of Chapter 81.

MINUTES OF MEETING, Special
BOARD OF SELECTMEN

Apr. 30, 1958

7:00 P.M. Present: Chairman, John Hill, Selectmen, Henry B. Adams & Philip W. Burke, Town Accountant, Fred L. Baker.

Bills approved for payment--Warrant #23, Amount, \$2776.42.

Bill as received from Al's Auto Body Shop, in the amount of \$128.00 was approved on tonight's warrant. Original estimate came to office in amount of \$115.00. Chairman Hill checked, by 'phone, with Sup't. Pessini, tonight, who informed him that additional charge was due to a primer coat of paint, which had to be given the two-ton Chevrolet truck.

7:30 P.M. Town Counsel, Alfred W. Howes, then appeared. A short discussion ensued relative to a Petition as granted by a former Board, to the N. E. Tel & Tel Co. on April 3, 1957, on Oak Hill Road, easterly side, at the southerly corner of Hilltop Drive, so-called, for the relocation of one (1) Pole.

7:40 P.M. Then appeared Mr. Edward V. Chaput and Mr. Paul Menard to again discuss the above-mentioned Petition. Mr. Chaput stated that the wires, which are to be attached to this pole, will be crossing private property, that the Telephone Company wants to string wires from Oak Hill Road down across Hilltop Drive. Chairman Hill told both men that this situation does not have anything to do with the Town. Mr. Chaput brought out the fact that the Telephone Company has dug a large hole for this pole, that because of said hole, a dangerous condition exists. The Board informed both men it would write the Telephone Company to exercise this Permit or fill in the hole, which it contends has made the situation hazardous.

8:00 P.M. At approximately this time, Reverend David Cross, Minister of the Congregational Church, appeared, handing in a proclamation, concerning Arbor Day, to which the Board gave its approval, by signing same. Rev. Cross represented the Southborough Village Society.

Also, at this time a hearing was scheduled concerning Petition of the N. E. Tel & Tel Company to locate one pole on Chestnut Hill Road, from a point approximately 210 feet northwest of Main Street. No one appeared to object. Vote in favor, unanimous.

8:05 P.M. Then appeared Mr. Robert McCarthy of McCarthy Engineering, Natick, and his assistant, Mr. Veo, for the purpose of discussing the drainage on the development off Atwood Street, as recorded under the Learned Trust. Chairman Hill stated that this matter would be brought before the Planning Board. A meeting this Thursday night is to be set up with the Planning Board to discuss the above.

Mr. McCarthy then told the Board of Selectmen about Homes and Housing Finance, which is a Federal thing, whereby the Town could borrow money, interest free, if and when it should wish to make a drainage study of the Town.

8:30 P.M. Next appeared Mr. Louis Tombari and Mr. Paul Belliveau who told the Board they and others were interested in starting a Boys' Club, in Southboro, and wondered if it were possible to use the Fayville School House located on Oak Hill Road, as headquarters for said Boys' Club. Mr. Tombari stated that he felt the use of the present school building would be on a temporary basis. Mr. Howes stated he didn't think the Town could be authorized to give it (the schoolhouse) to them. He is to look into the matter further.

By-law, concerning Soil Erosion discussed. Mr. John Schmedes of Ledgehill Homes, Hyde Park, has informed the Selectmen, by letter, dated 4/30/58, that he is going to remove loam from the property on Clifford Street, out of the Town. Mr. Howes stated that there seems to be a question as to whether or not this By-Law (Article IXA, Section 2, Paragraph d) is in effect. Mr. Howes continued that he thought this should be taken out of the By-Laws and put into the Zoning Laws. Mr. Schmedes is being informed that the above matter does not come under the Board's jurisdiction.

9:00 P.M. Then appeared Mr. Edward Williams and Mr. Kenneth Clark of John Street, relative to the bounds on said Street. Mr. Williams explained to the Board that it was the opinion of the people living on John Street, that the bounds are wrong, that because of this fact, it will affect the sale of property on said Street. Mr. Howes checked deed, as belonging to Town with the Map as brought in to office by Mr. Williams. Mr. Howes also suggested that the Town abandon John Street and relocate it again, that the town could take the Road by eminent domain. The Board then told Mr. Williams and Mr. Clark that when Mr. McCarthy meets with it, Thursday night, they would be informed, so that further discussion may be made.

Drainage condition, near Dr. Meserve's residence, discussed.

Junk Licenses unanimously granted to:

Frank Forbes - Parkerville Road dump only
Peter D. Hartnett - Town of Southborough

Zoning Permit unanimously granted James Malcomb, Valley Road, to erect a 30' x 70' greenhouse. Since a fee had not been voted, under the Zoning Law, for greenhouses, the unanimous vote by the Board for same was \$25.00.

The Second Bank-State Trust, is being informed, by letter dated 5/1/58, concerning said Bank's inquiry relative to the Allen Sisters, nieces of the late Francena E. Buck, as to whether or not said sisters are eligible under the Francena E. Buck Trust fund, for appropriations out of the Town's Welfare funds, in anticipation of funds to be received when the above trust terminates. Said letter states "There is some question whether the Allens ever did reside in Southborough, and, if they did, they have been absent from the Town of Southborough so many years, that they would now have lost their settlement".

Chapter 718, concerning a State allotment to the Town for construction or reconstruction work, again discussed. The Boston office of the Department of Public Works is being asked, through letter dated 5/1/58, for a copy of a map showing the proposed Route 110 going through the Town of Southborough.

A second full-time Police officer, again discussed. Applications as re-

ceived from Fred Baker, Jr., Joseph Noberini, Charles Philbrick and Richard Hunt, perused by the Board. Again laid on the table, as Mr. Hunt did not indicate the type of police^{work} applied for. He is to be contacted on same.

Bids concerning Pick-up truck for Highway Dept. and Cruiser for the Police Dep't., discussed. Unanimously voted to advertise said bids at the same time. To be discussed at a subsequent meeting.

Registered letter as received from Mr. Arthur Kiley, Edgewood Rd., concerning trailer, as owned by Mr. Nicholas Siracusa, located on the Avis-Batchelder property, discussed. Police Chief to investigate whether or not said trailer is being occupied.

Selectman Adams reported tonight, that Mr. Orville Fletcher, Turnpike Road, Fayville, was found guilty of selling liquor to minors, in Superior Court, Worcester on May 2, 1958, and find Fifty (\$50.00) Dollars.

Letter, dated April 24, 1958, from the N. E. Tel & Tel Company, concerning calls as have been placed to the Southborough Fire Department and no answers received, noted. Said letter stated that the Company suggested to Chief Boland that a red-light system be set up.

Contract, for the mowing and trimming of the various recreational fields and the Town-House grounds to be drawn up by the Town Grounds and Services Department--one copy to be sent Selectmen and one to the Town Accountant.

Letter, dated April 29, 1958 from Mr. Alfred W. Howes, Town Counsel, relative to the status of the Shell Gasoline Station at the southwest corner of Middle Road, discussed. It is Mr. Howes' opinion that since the old license has never been revoked and since such licenses run with the land, said license is still in force, that the only thing necessary to reactivate the station, is a Permit from the Fire Chief. Mr. Kee is being so notified.

Meeting adjourned at 12:00 M.

Discussion followed relative to the stripping of loam, by Ledgehill Homes, Inc. of Hyde Park, whose General Manager is Mr. John Schmedes. It is felt by the Board, that an unnecessary amount of land was stripped, on Clifford Street, in order to erect house-dwellings thereon. Vote unanimous that case be placed in the hands of the Town Counsel.

A meeting, jointly, with McCarthy Engineering of Natick, and the Planning Board, was unanimously voted--problems which are being caused by developers on land off Atwood Street, off Middle Road, and off Clifford Street are to be discussed. Mrs. Batchelder, Edgewood Road, is being notified to have the trailer being presently used as living quarters and located on her land, vacated.

Mr. Pessini reported that the State Engineer told him there would not be enough money from said Chapter 718 allotment to do Northboro Road, and suggested using said money on a "type I" job on Main Street, and "make it a Chapter 90 road". Selectman Burke is to discuss, further, Chapter 718 and Northboro Road with said Department of Public Works.

Chairman Hill then told the Sup't. that the Personnel Board disapproved the raise for George Boothby, as said Boothby has not been in Highway Department long enough.

Board discussed oil bids again--Voted unanimously, that Trimount receive Fifty (50%) per cent of contract and N. E. Asphalt & Tar Fifty (50%) per cent. Both are being notified.

9:00 P.M. Next appeared Fred Baker, Jr., 9:15 P.M., Joseph Noberini and 9:30 P.M., Charles L. Philbrick, respectively. At each separate meeting with the Board, the Selectmen informed the abovementioned that a physical examination was required, in order to fulfill the position of a full-time police officer. (When Mr. Noberini appeared at 9:15 P.M., he withdrew his application).

Board then Voted to install one (1) street light on Pole #6--Walnut Hill Road. Clerk to the Board of Selectmen

MINUTES OF MEETING, Special
BOARD OF SELECTMEN

May 21, 1958

Members assembled at 7:00 P.M.

Present: Chairman, John Hill, Henry B. Adams, and Philip W. Burke.

Then appeared the Town Accountant with Warrant #26. Bill, as presented by the Town Grounds and Services Department, in the amount of \$123.96, was taken off warrant. Amount of Warrant, \$14,059.01

Mr. Fred J. Quinn, Chairman of the above-mentioned Department, is being notified to the effect that in order for the Board of Selectmen to pay an hourly rate to any individual working for his Department, said rate must first be approved by the Personnel Board, and secondly, that a contract be presented to the Selectmen for their approval.

Selectman Hill reported that Mr. David Thoits, who was to have attended this meeting, would not be here, as he (Chairman Hill) talked to said Thoits. It was decided that the Board of Selectmen would investigate on the Thoits property, the drainage condition as it exists.

Chairman Hill then talked, by telephone, with Town Counsel, Alfred W. Howes, relative to the Town's not having received any Bids on either the Police Cruiser or the Highway Pick-up truck. According to Chairman Hill, Mr. Howes stated said Bids must be again advertised. Said Bids again to appear in the Worcester Evening Gazette of Monday, May 26, 1958.

Chairman Hill also asked the Town Counsel to look into the matter of a hot-top sidewalk, to cross the New York, New Haven & Hartford Railroad tracks, going in an easterly direction from the Southborough News Shop or thereabouts. Mr. Howes is to contact the Railroad authorities, relative to same.

8:00 P.M. Mr. J. Kenneth Murphy appeared, representing the Knights of Columbus, Phil Sheridan Council. Mr. Murphy explained to the Board that his Organization is desirous of having the Highway Department help to take away sufficient dirt in back of the building owned by the K of C, so that cars may be parked there. At the present time, the Highway Department is using some of said land as owned by the K of C. According to Mr. Murphy, the K of C is perfectly willing to allow the Town to use part of this land, for the parking of Highway Equipment thereon, as has been done in the past. Board is to investigate. Chairman Hill suggested to Mr. Murphy's staking off that portion of land on which the K of C wishes to use as a parking lot, and that some kind of agreement be drawn up.

Chairman Hill mentioned the meeting with the Planning Board last night and Howard and Whitman--possible survey to be made concerning drainage in the Town.

Chairman Hill also reported that the large hole at Willow Street has been filled in. Water hole on Oregon Road discussed--to be filled in. A unanimous Vote was made to take rocks out of the Hubley land to fill the above-mentioned water hole.

Chairman Hill also reported that complaints were coming to him relative to a drainage condition on Richards Road, near the Hart-Harris property. Mr. Hill was told that the Macadam had been taken off the Road (Richards), by the Street Sup't. Mr. Hill stated he looked at this spot, that it had been dug and refinished. The Board was disturbed at this and decided to call in the Street Sup't.

A unanimous Vote was then made that St. Mark's be granted permission to hold a parade on Saturday, May 24th, provided it is victorious over Groton.

Vote unanimous that Walter Hamlin, Winchester Street, be granted permission to build a retaining wall on his property, with the provision that the wall will not extend onto Town property.

8:30 P.M. The appeared Mr. Leo Pessini, Highway Superintendent. Chairman Hill explained to the Sup't. that he had a call from the Harris' on Richards Road, to the effect that he (Sup't.) dug up part of the Road near their property. Mr. Pessini explained that at the direction of the State Engineer, he cut the side of the Road (left side) that where the Selectmen had "put the dirt", the State Engineer, according to Mr. Pessini, stated the Selectmen had no business putting the dirt where they did, as it created a hazard.

Chairman Hill then asked Mr. Pessini if he dug up the Macadam Road. "No", stated Mr. Pessini, "we did no patching down there", "we didn't dig up any of the Road at all". Mr. Pessini also stated that he knew that Mrs. Harris had "Rice" down there taking pictures. Mr. Pessini continued by stating he wanted to install a pipe to take care of this drainage condition, that Mrs. Harris was willing that a pipe be installed, which would partially be on her property, but that she would not give him (Pessini) anything in writing. Mr. Pessini brought out the fact that the pipe, in question, which is plugged up, was done so by fresh cement. The Board advised Mr. Pessini, in the future, if anything comes up, refer the person or persons to the Board of Selectmen. The Board told Mr. Pessini that when they give him an order and the State does not approve of it, to let them (Selectmen) know about said State's disapproval.

Possibility of having the State Engineer at a Selectmen's meeting, considered.

Chapter 718 again discussed. Chairman Hill stated he would like to talk with the State Engineer and the Sup't., relative to Northboro Road.

9:15 P.M. Then appeared Mr. Arthur Blaney, Manager Local Branch office of the N. E. Tel & Tel Co., Marlboro, Mr. LaVesque, also of said Company, and Fire Chief, John Boalnd. A discussion followed as to the advisability of installing a red-light system in the Town. Mr. Blaney explained to the Board that on a number of occasions, the Telephone Operators called the home of the Fire Chief, without receiving an answer. Mr. Blaney continued that if any one calls in the number of 131, and there is a fire, and the person making the call does not say "Emergency Fire", said call will be handled the same way as any other call. Mr. Blaney stated that it is becoming very difficult to complete fire calls. Mr. Blaney explained here that Dial System would be in the Marlboro area in a year. Fire Chief Boland stated that a "man must be put in the Station". "We certainly don't want

to have a bad fire and bring a law suit against the telephone company". Possibility of having the siren blow automatically, considered. Also, considered, the possibility of having three (3) or four (4) telephones in different locations, ring automatically, that these 'phones would only be used for INCOMING CALLS, having no connection with personal 'phones. Mr. LeVesque stated that a monthly fee per 'phone would cost about \$3.45. Chief brought out two important facts. First, that it is difficult to get anyone during the daytime to answer such calls, and secondly, that when such calls are answered, there is always the chance of someone's not receiving message correctly, hanging up, and line's becoming dead.

Mr. Blaney stated that in some cases, the Operators, in desperation, called the Police Department to sound the alarm.

The Board told both Mr. Blaney and Mr. LeVesque, that it would talk the situation over further with the Fire Chief. It is felt that this situation is a serious one. A decision was made that a list of those towns using red-light systems be forwarded to this office, from the Boston office of the N. E. Tel & Tel Co. A request was made by the Fire Chief that a copy of the above minutes and above-mentioned list be given him.

Before leaving office, Chief Boland stated, "absolutely no trouble getting calls since 'cards' went in", and that this situation ought to be put before the Townspeople as many angles had to be taken into consideration.

Zoning Permits were then granted the following:-

Edmund C. Binns, Stowe Road	Breezeway and Garage

Chief Mattioli pointed out that these children have gotten inside the fence where said condensers are and that something very serious could happen to them. Chairman Hill suggested that Chief Mattioli put a notice in the Marlboro Enterprise, cautioning said children and all others, relative to the above, that anyone's found throwing rocks, will be prosecuted.

The following Zoning Permits were granted:--

John A. Maley, Winchester & Upland

Bills approved for payment--Warrant #28, Amount--\$6,805.26. (Bill in the amount of \$125.26, concerning salary and expenses of the Veterans' Agent, as taken off last week's warrant, discussed. Veterans' Agent's salary, only, approved.

(Above figures given without trade-in allowances)

Above bids tabled for the time being--to be discussed with the Highway Sup't.

8:30 P.M. Then appeared Mr. Orville Fletcher, relative to the hearing being held tonight, concerning his liquor violation of August 12, 1957 and being found guilty in Superior Court, Worcester, on April 30, 1958. Also, attending this hearing, was Chief F. J. Mattioli.

Chairman Hill read aloud a letter dated 5/5/58, as received from the Clerk of Courts, Worcester, notifying the Selectmen of said Fletcher's guilt and being fined Fifty (\$50.00) Dollars.

Chairman Hill to Mr. Fletcher--"On August 12th (1957), did you sell brandy to a minor"? Fletcher: "It was three weeks after that happened, the first I know of it". A lengthy discussion ensued relative to other places, as possibly selling liquor to minors. Mr. Fletcher told the Board of Selectmen that it was difficult, at times, to determine whether or not a person is or is not a minor and suggested that some kind of form be drawn up, whereby the person purchasing said liquor will have to sign for same, to the effect that he is not a minor. Chief Mattioli presented such a form as used by the Hopkinton Police Department.

9:05 P. M. Mr. Joseph K. Murphy, Veterans' Agent, appeared, and the Board explained to him that it had approved his salary, but not the expenses as shown on last week's warrant. It was agreed that Mr. Murphy would submit his expenses at the end of the year.

9:10 P.M. Then appeared the Town Counsel, Alfred W. Howes, and a discussion ensued relative to the suit as being brought against the Town by Mr. William Merchant and Mr. Alvin C. Starcher, concerning a bill as owed said Starcher, as a result of cutting down trees on Woodland Road, so that a house as owned by said Merchant could be moved to Parkerville Road.

9:20 P.M. or thereabouts, Mr. Wallace Goodnow, Chairman of the Planning Board, appeared, and handed in a Petition, as signed by ten (10) persons, requesting that a Special Town Meeting be held, relative to the amending of Article IXa (Soil Erosion) of the Town's By-Laws.

9:30 P.M. Then appeared Mr. William Merchant, his Attorney, Mr. Fred Williams, of Marlboro, Mr. Alvin C. Starcher and his Attorney, Mr. John C. Acton of Framingham. Mr. Walter J. Witkowski, who is also involved in this matter, is presently residing in California.

Mr. Williams explained that his Client (Merchant) was willing to pay around three hundred (\$300.00) dollars, that he (Merchant) felt he could meet the cost of it, meaning the moving of his house from Woodland Road, that the Superior Tree Company was engaged by the Town, through its Tree Warden, that said Superior Tree Company did a "splendid job" from the roots to the tops of the trees, that Mr. Merchant got a letter from the Tree Warden, who, in turn, had gotten a bill from the Superior Tree Company in the amount of \$498.00, that Mr. Onthank informed Mr. Merchant, in his letter, that he would have to pay one-half of said \$498, that Mr. Witkowski was to pay the other half, and that the bill in the amount of \$573.00 (balance of Superior Tree and Starcher Expert Tree Company) were to be paid by him (Merchant). It was brought out that Mr. Starcher had a "basic" claim of \$324.00. Chairman Hill asked Mr. Starcher, "as far as your bills are concerned, you didn't trim any unnecessary trees"? "No", stated Mr. Starcher, "they (meaning Superior Tree Company) trimmed trees from the roots to the tops that were not necessary, to move the house", "I'll agree that the Superior 'guy' was working where he shouldn't have been working". Mr. Williams strongly in favor of an "equitable" solution. A unanimous Vote was taken to compromise the claim of Mr. Starcher by agreeing that judgment may be entered for him (Starcher) for the sum of one Hundred (\$100.00) Dollars. Selectman Adams feels that Mr. Merchant should pay the \$300.00 dollars he had agreed to pay quite some time ago. A letter is to be written the Town Counsel, authorizing and instructing him to compromise said claim. Above case to come up Friday, June 6, 1958, in Westboro District Court.

Unanimous Vote that Wm. H. Onthank be appointed as Town's Animal Inspector.

Sidewalk to cross the N.Y., N.H., & Hartford R.R., discussed. Town Counsel advised Board to obtain sketches of said proposed sidewalk, showing grades, etc. Town is to engage an engineer for said work.

Unanimous Vote made that Gannon Motors be awarded Cruiser Bid. Said Motors is being so notified. Bid not to exceed \$968.20.

Unanimous Vote was made that a Special Town Meeting be held on June 30, 1958, and that all Articles for said Meeting be in by June 18th.

Orville-Fletcher case again discussed. It was felt that, since Mr. Fletcher received only a fine of Fifty (\$50.00) Dollars, in the Westboro District Court, that there was some sympathy granted him in this matter and that, as was brought out by Mr. Fletcher at the hearing, in some cases, persons showing I.D. cards, which make it difficult to definitely establish a person's correct age, the Board Voted to suspend Mr. Fletcher's License one (1) week, effective June 16th through June 21st., 1958.

Permit to remove topsoil by Thomas J. Lee tabled.

Meeting adjourned at 12:25 A.M.

MINUTES OF MEETING
BOARD OF SELECTMEN

June 11, 1958

7:00 P.M. Present: Chairman, John Hill, Selectmen, Henry B. Adams & Philip W. Burke.

Then appeared the following persons from Mitchell Street, Fayville:-

Robert McNair, Weiner Steuernagle, and Harry Leland, for the purpose of discussing the possibility of continuing Mitchell Street for approximately two hundred (240) forty feet to the turnaround. Mr. Hill told the group that the section, in question, is not owned by the Town, and that persons interested in having this particular section of Mitchell Street accepted, would have to put in proper drainage, gravel to a depth of twelve (12) inches, and two (2) coats of oil put on, that an article would have to appear in a Town Warrant asking said Town to first accept the land and then the road. It was finally agreed by all that the Board of Selectmen would request of the State Engineer, to go over to said Mitchell Street, to see what must be done. (During the course of the above, Mr. E. C. Williams, John Street called and talked with Chairman Hill, relative to placing an article in the Warrant)

7:05 P.M. Town Accountant, Fred L. Baker, then appeared. Bills approved for payment--Warrant #29--Amount, \$16,687.09.

Selectman Adams then reported that he had met the State Engineer (Mr. Scott Benedict), who suggested that the Town use Chapter 718 money (\$13,326.51) on Walnut Hill Road, that Northboro Road could be done, but that only a small part of said Road could be done with the above-mentioned 718 allotment.

8:05 P.M. Then appeared John W. Boland (Police Chief Mattioli did not attend this meeting). Chief Boland requested that an increase in the pay-rate for Brush and Forest Fire fighters be increased from one (\$1.00) dollar to One and 50/100 (\$1.50) dollars an hour. A unanimous recommendation was made and so Voted: that the hourly rate of the Fire Department--Brush and Forest Fire, be increased as mentioned above. Said recommendation is being sent the Personnel Board. Chief Boland reported that he would be out-of-town from June 22nd. through June 29th.

Report from May 25th through June 7th, as submitted earlier this afternoon, by the Police Chief, accepted by the Board.

8:15 P.M. Then appeared Mr. Leo Pessini, Street Sup't., making his routine report. Mr. Pessini reported to the Board that the Town Counsel informed him, he (Town Counsel) searched the records, in Worcester, and that he could not find any indication that Mr. Raffaele Giombetti ever gave an Easement to the Town of Southborough.

Condition at the premises of F. Ciannella's, Middle Road, to be investigated. Sup't. Pessini stated that "man from Markel (Ins. Co.) was down yesterday, that he (Markel) was going to send a contractor down to see what it will cost to put the wall back, that Markel stated the Town gave him an estimate of One Thousand (\$1,000.00) Dollars". (Above refers to accident at corner of Routes 85 and 30). Both the Superintendent of Streets and the

Board of Selectmen do not know who gave this figure of "\$1,000.00". Possibility of the Town's Highway Department doing the work on the above-mentioned, discussed. Sup't. Pessini feels said work could be done for about Six Hundred (\$600.00) Dollars. "Cleaned up pile of stone on John and Mitchell Sts", reported Mr. Pessini.

Request of the above-mentioned persons on Mitchell Street discussed with the Sup't. Mr. Pessini stated "they (meaning Mitchell Street residents) will have to put up a wall". According to the Street Sup't., said wall would run from the Playdon property about 150 feet on the southerly side.

Chapter 718 again discussed. Mr. Pessini stated that the State Engineer is in favor of Walnut Hill Road. Mr. Pessini continued, "on Northboro Road you can use that (meaning 718 money), but you won't go much further than Johnson's Barn". Mr. Pessini also told the Board that Mr. Benedict suggested making Northboro Road a "90" road. Possibility of making Northboro Road a 90 Construction Job, considered. It is the understanding of the Selectmen and the Street Sup't. that the State does not like to do a partial job on 718 money.

Gas installations on John Street, discussed. Chairman Hill is to talk with Mr. Stanley MacNeil, of the Worcester Gas light Company, about same.

Pick-up truck for the Highway Department discussed. Possibility of having Day Bros. install a small motor, bringing the price down about one hundred (\$100.00) dollars, discussed. Selectmen Burke to try to obtain information relative to a small motor installation.

Custodian, Benedict Maguire appeared, relative to having the electrician check the emergency lights in the Town Hall. Cost of same \$5.95 each--there is an insufficiency of money, at this time, to take care of same--painting of the outside of the Town Hall discussed. To be put out on bid.

MINUTES OF MEETINGS, Specials
BOARD OF SELECTMEN

June 1958

Thursday, June 12th 6:30 P.M.

The Board of Selectmen made a tour to investigate certain problems throughout the Town.

1. Sidewalk in front of the Fay Library: It was decided to request the Sup't. of Streets to do some necessary patching of a temporary nature, with a view to making permanent repairs next year.
2. The Board then went to the property of Frank Campana (Boston Rd.) to investigate a complaint brought to the Board by Mr. and Mrs. Henry P. Houghton. It was the decision of the Board that no hazard existed in any degree, that would come under their (the Board's) jurisdiction.
3. The Board then went to the property of Joseph F. Murphy on Turnpike Rd., relative to a complaint regarding the brook which backs up onto their (the Murphy's) land in wet seasons. It is the decision of the Board to request the Sup't. of Streets to erect a "headwall" and other necessary work to overcome the problem.
4. Then the Board investigated the conditions of John and Mitchell Streets, which were caused by the laying of gas pipes, by the Worcester Gas Light Company. The Board is to request the Gas Company to do some hot-topping in order to bring excavations up level to the road, making it smooth.
5. The Board then went to Middle Road, property of Frank D. Ciannella, relative to a complaint by the Sup't. of Streets about two (2) cement piers being set on Town property, also a mail box and a light erected on southerly pier, extending out into the road on an iron post. We found that Mr. Ciannella was not at home. The Board will contact said Ciannella at a later date.
6. The Board then went to the home of Charles McNeil, Southville Road, relative to a drain which they (the McNeils) claim has been stopped up, during construction of Chapter 90 Road. It was the opinion of the Board that the Sup't. of Streets be instructed to get a layout of the road, to see if said drain was incorporated in the layout. It was also the opinion of the Board that some action should be taken to overcome this problem.
7. The Board then called at the property of Thomas Lindsay, Southville Road, to discuss a Zoning problem with Mr. Lindsay, who was not at home.

(Mr. Lindsay has built a house on Southville Road, and the Board feels said house is built too near town property, also that the building of said ⁸⁸³²may be in violation of the Zoning By-Law). Mr. Lindsay was requested to find out just when he purchased the land and when he took out his mortgage, and the date said cellar hole was dug.

8:38 P.M. Then appeared Fire Chief, John W. Boland, handing in the necessary information concerning an article to be put in the Special-Town-Meeting Warrant, in the amount of \$1,475.77, which, if voted upon, will defray expenses that occurred last year, fighting fires on the property of Business Development, Inc., on Atwood Street.

Zoning Permit application as applied for by the Murwel Construction Co., discussed. Mr. James Murphy, Treasurer, of said Company, is being notified to send in another set of Plot Plans, as those submitted only showed the leaching fields, and not showing the lines on which the house on Lots #21 and #22 are to be set.

A lengthy discussion then ensued relative to articles received for the Special Town Meeting.

Articles on Soil Erosion, as received from both the Town Counsel and the Planning Board discussed. It is felt that said Town Counsel and said Planning Board should get together and discuss said articles. Present: Chairman, John Hill, Selectmen, Henry B. Adams, Philip W. Burke.

Mr. Wallace Goodnow appeared and a discussion ensued relative to his Board's Article XIII, which is appearing in the Special Warrant for June 30, 1958, concerning soil erosion. An Article, by the Town Counsel, is also appearing in said Warrant concerning said soil erosion, and Mr. Goodnow feels that confusion may result if both articles are left in. (According to the Town's By-law, Warrants for Special Town Meetings must be in the hands of the public at least five days (5) before such meeting. Said Warrants were distributed today).

7:20 P.M. Then appeared Mr. Charles Corbett and Mr. Thomas Young, members of the Board of Cemetery Commissioners, relative to a retroactive payroll of the Cemetery Superintendent, Mr. Harold Stivers, from January 7th to April 1st. 8:00 P.M. Then appeared Police Chief Mattioli, handing in his bi-weekly report from June 8 through June 21, 1958. The Chief discussed the request of Mr. Greene, Main Street, relative to having signs changed to the bottom of the hill, as cars are coming up over said hill at a fast pace. Said signs referred to read "Go slow-children". Accident involving Police Cruiser, discussed. Chief Mattioli stated it will cost the Town about \$28.00, since insurance policy calls for a \$50.00 deductible clause. Repairs to said cruiser to be made before turning in same for new cruiser. Chief Mattioli reported that "Fred Baker" (newly appointed full-time man) "seems to be working out very well". "I think everything will be fine". Resuscitator discussed. The Board is now in receipt of a letter from the Mine Safety Appliance Company, of Pittsburgh, referring the Town to one of its Boston representatives. Chief Mattioli is to contact said representative, to come to Southborough and give a demonstration.

8:40 P.M. Then appeared Mr. Leo Pessini, Street Sup't. and a discussion ensued relative to Mitchell Street. Sketch of Mitchell Street, showing where said Street should really be located, shown to the Selectmen, by Mr. Pessini, who stated, "Town won't get any money from Chapter 81 if road is left as it is". Mr. Pessini stated just to oil and gravel said road would cost about \$2,000.00.

Mr. Pessini then reported that he had the McCarthy Engineers up to look

over Hillside Avenue, that the work there would cost about Fifteen dollars a foot, that he (Pessini) got in touch with the Joseph Pyne Company who told him said work could be done for about \$3,000.00, that he suggests that the Board ask for \$3500.00 to do said work.

8:50 P.M. Then appeared Town Counsel, Mr. Alfred W. Howes. Discussion continued relative to Hillside Avenue. It was reported that Mr. Rego of McCarthy Engineering stated a figure of \$4500.00 to do said work on Hillside Avenue

A long discussion ensued relative to whether or not the Annual Town Meeting was dissolved or adjourned. Mr. Howes explained that no Town meeting is dissolved until every article has been acted upon, that it (the law) furthermore states that when it (Town Meeting) is adjourned to a specific day, the town meeting is adjourned, and that "Without day" it is dissolved.

Mr. Burke explained that he had approved a loan by the Town sometime ago, on the strength that the Annual Town Meeting had been adjourned. Mr. Howes told Mr. Burke that if the bank loaning the money to the Town had checked the articles in the Annual Meeting, and found there was no adjournment, the Town would not have gotten the loan. Mr. Howes stated that in his opinion the Town Meeting was dissolved and that Article 2 is to eliminate any disagreement.

The article concerning soil erosion discussed. Mr. Howes feels that this article should be incorporated with the Zoning Laws and not the By-laws.

Hillside Avenue discussed, again. As far as the Town Counsel is concerned, no specific amount of money was voted. Possibility of abandoning said Avenue and relocating it, considered.

Bill, as presented by the Town Counsel, some time ago, in the amount of \$41.00, approved tonight.

Zoning Permit application of Mr. Asadour Topalian, Woodland Road, discussed. Mr. Topalian is being informed through a letter, that it is felt that according to his blueprint, a sub-division condition exists, that said application would have to first be taken up with the Planning Board.

At about this time (7:45-8:00 P.M.), Chairman Hill received a telephone call from Mr. Wallace Goodnow, Chairman of the Planning Board, asking permission to use outside counsel, that the Town of Southborough is being sued in equity, by either Pieper (Charles) or Cerel (Martin) or both. Mr. Hill told Mr. Goodnow that it is the opinion of the Board that the Selectmen should have a conference with the ~~Withning~~ Board (Planning Board) before doing anything about it. According to Chairman Hill, Mr. Goodnow stated he did not think a conference was necessary. A vote was then taken that said Planning Board be given permission to use Town Counsel or outside counsel relative to above-mentioned suit of Peiper or Cerel vs Town of Southborough. Mr. Topalian told the Board that at a meeting with the Planning Board, last night, it was a unanimous opinion of said Board that his blueprint of his land on Woodland Road, was not considered a sub-division, as first thought by the Board of Selectmen, and that approval by the Planning Board was not required. (Earlier in the evening Mr. Topalian had called the Selectmen's office stating the above, and the Clerk suggested his obtaining something, in writing, to the effect said Plot Plan was not a sub-division) Mr. Topalian explained to the Board that he was unable to obtain anything in writing from said Planning Board. "School Yard (A. S. Woodward) oiled", stated Street Sup't., "they want it penetrated". Cost to penetrate approximated at \$300.00, by Sup't. The Board feels that if the School furnishes the material, the Town will furnish

Correction on above Sup't. statement (see Memo)

Howes, to discuss with the Board the proposed permit to James Lee authorizing him to take materials from his land between Middle and Parkerville Roads. Mr. Howes is to rewrite said permit including said changes and submit copies to the Board. Bond is to be set at \$25,000.00. Mr. Howes stated it was his personal belief that Mr. Lee does not intend to build houses on this land, but to sell gravel and cautioned the Board that if this should be his intention, he (Lee) could make said land a gravel pit and sell same for a long time.

Mr. Howes stated "I think I can win this case on a technicality". It is the belief of the Board that the Planning Board is holding on this because of a Performance Bond. Said suit of R & S Construction is to be tried on July 28th, stated Mr. Howes.

Suit, as being brought against the Town by Charles Pieper of Cerel and Perini, discussed. It is the belief of the Board that the Planning Board is holding up on this matter due to the fact that drainage survey is under way at the present time.

Bill and Exemption Certificate, as received from Gannon Motors, Inc. relative to the new cruiser, which is now in the hands of the Police Department, discussed. It is the feeling of the Board that since the Chairman of the Board of Selectmen is absent and the Chief of Police is on vacation, said certificate and bill be held up until their return.

It was brought out at this meeting that certain requirements were not lived up to by Mr. Elkin, as claimed by the Planning Board. Mr. Howes read aloud, the agreement between the Town and Mr. Elkin concerning said Leonard Trust, relative to new development off Atwood Street, which requirements were to have been performed within two years after the signing of same. (Said agreement between said Elkin and the Town, relative to Leonard and Harris Drives, so-called, was dated Dec. 13, 1955).

Mr. Howes told the Board that he did not know just what this was all about until tonight. Mr. Howes suggested to the Board to insert an article in the coming Special Meeting Warrant for an appropriation of \$10,000.00, to be taken out of Excess and Deficiency, so that the Town can, if the case should arise, go in and finish the work as has not been done by said Elkin, billing him later for costs of same.

Mr. Adams stated that both he and Officer Baker entered said trailer and were shown around by Mr. Siracusa, occupant of said trailer. Mr. Howes told the Board it could enter a complaint. Chairman Hill told all present that it was his opinion such a committee would be illegal, that such a committee would have to be appointed by the Town Moderator, at a Town Meeting. Latisquama Road drainage again discussed - Mr. Pessini told the Board that, according to the State Engineer, 110 feet of pipe, beginning near the Henry Baker driveway and coming across to the Misener property would not be sufficient to take care of said drainage, that thirteen or fourteen hundred feet of pipe would be necessary to do the work right.

Selectman Adams then told the Town Accountant that he had talked with Mr. Herman B. Dine, Director of Accounts, relative to the allotment of \$13,326.51 for the reconstruction of Walnut Hill Drive, that since the Town voted the exact amount of said allotment, a Special Account could be set up for same. Mr. Adams stated Mr. Dine was convinced this amount, as voted, was specifically for Walnut Hill Road, and voted in under Chapter 718.

Bills approved for payment - Treasury Warrant #45, Amount-\$9,027.49.

Mr. Baker then asked the Board if there is any possibility of having the skating rink flooded this season, and was told said rink now under the jurisdiction of the school.

7:30 P.M. Mr. Vernon S. Burnham, Sr., Marlboro Road, then appeared, asking for a Gasoline License as he intends to resume the selling of same on premises formerly operated by Francis Charnley. Mr. Burnham explained that, at the present time, there are no gasoline underground tanks at these premises, that said tanks had been removed, he believed, a little over a year ago. It is presently used for the sale of auto parts for cars used in speed races. Chairman Hill told Mr. Burnham there is some question as to whether or not he could now sell gasoline, as this establishment is in a RESIDENTIAL DISTRICT. Further investigation on same is to be made.

8:00 P.M. Next appeared Mr. and Mrs. Roland J. Mailhoit and Mr. Victor M. Benkoski, of Marlboro Road, relative to a Public Hearing as being held at this time, resulting from a request by N.E. Tel & Tel. Co. to place and maintain cables, manholes, etc., on:

NEWTON STREET, approximately 105 feet of buried cable from Pole 26/1 northerly to Framingham Road, and,

FRAMINGHAM ROAD, approximately 724 feet of buried cable from Newton Street, westerly to Pole 583/68, and,

NEWTON STREET, approximately 207 feet of buried cable, from Pole 46 northwesterly to Pole 44.

Selectmen, Philip W. Burke, represented his father John H. Burke, whose property on Newton Street abutts one of the proposed locations. Selectman Burke, after carefully noting plan locations of this present request, expressed no objection to same.

Mr. & Mrs. Mailhoit as well as Mr. Benkoski, after carefully noting plan

locations on Newton Street and Framingham Road, expressed no objection to same.

8:20 P.M. or thereabouts, Mr. George W. Albrecht appeared, handing in to the Board, his application for a Zoning Permit to build a one-story garage on his premises on East Main Street. (A hearing, by the Board of Appeals was held tonight, and Mr. Albrecht received his Variance from same). It was then unanimously;

VOTED: that a Zoning Permit be granted George W. Albrecht to use certain land located on East Main Street for the purpose of erecting said garage.

8:30 P.M. Then appeared the Planning Board, including Chairman, Wallace Goodnow, Sumner W. Elton, Cameron Bradley, and Edward Borst. Also, at this time, appeared, Town Counsel, Alfred W. Howes. The purpose of this joint meeting was to discuss pending lawsuits as brought against the Planning Board and the Town Clerk, by Charles Pieper. According to Mr. Pieper, he did not receive an official notice to the approval or disapproval of his sub-division plan and that he (Pieper) did not have a chance to file an appeal within the twenty-day period of such disapproval. Also, that he (Pieper) requested certification of said approval or disapproval from the Town Clerk, who, according to Pieper, refused to submit same. (Said Sub-Division Plan, as applied for by said Pieper on May 28, 1958, refers to land off Parkerville Road bounded on the north by said Pieper and Charles Barton, on the east by "approved sub-division of the owner" and lands of Peters, on the south, by lands of Charest and "n or F" lands of Parmenter, and on the west, by lands of Whittemore).

The Planning Board contends that action (not a Public Hearing) was taken in as much as a letter had been written Mr. Pieper stating what it (Planning Board) strongly contends was its (Planning Board's) reason not to approve said sub-division, viz:

that it (Planning Board) is in the process of having an over-all survey concerning the Town's needs, relative to a drainage system, made. That it (Planning Board) had applied to a Federal Agency for funds for such a survey. Mr. House, Town Counsel, contends this reason, as stated above, is not a reason for the Planning Board's disapproval of same, since such a survey could take years for its completion. Mr. Howes told all present, that the Town is going to lose this case.

Mr. Howes was instructed to base his case on the letter, as sent by the Planning Board, to Mr. Pieper, relative to said Drainage System Survey.

Mr. Howes was also instructed by the Board of Selectmen, to see what can be done to force Mr. Frank L. Elkin, Trustee Leonard Trust, make good to the Town, by having Harris and Leonard Drives, so-called, properly built, since he (Elkin) is in default of his agreement, dated December 13, 1955, which expired as of December 13, 1957.

Two Performance Bonds exist, one for \$10,000.00, agreement on same expired 12/13/55, and one for \$25,000.00 (Bryden and Moulton Roads) agreement on same expired as of 3/26/58.

Selectman Burke then brought to the Planning Board's attention the matter of

its not answering letters, as sent by the Board of Selectmen, also the matter of its not signing "approved" or "approval not required" on Zoning Permit applications, as sent by the Selectmen. It was agreed by said Planning Board thar said letters and Zoning Permits applications would be answered.

The removing of loam. again by John Schmedes, on Clifford Street, discussed. (A complaint had been received in the Selectmen's office regarding said removal). Mr. Howes advised the Board that since said Schmedes won his case against the Town, to let matters stand as they are. Unanimously agreed to by Selectmen.

Zoning Permit application, as submitted by Joseph Thompson of Stub Toe Lane, to build on the corner of Lyman and East Main Streets, discussed. Since Mr. Thompson did not accompany his application with sufficient number (5) of Plot Plans, and since the one as submitted by him showed a ninety-five foot frontage and a 100 foot depth, or an area of 9500 square feet, he is to be notified to get in touch with the Board of Appeals for a Variance. (A new Law, relative to Lots which have not the required frontage, etc., is to go into effect on October 8, 1958).

Dog, as shot by Officer Fred Baker, Jr., for the killing of five (5) rabbits on August 18, 1958, discussed. (According to Law, any person other than the Dog Officer, who shoots a dog found maiming, worrying or killing rabbits or poultry, is entitled to a fee of \$10.00). Mr. Howes stated that this was so, that he would procure said form to be filled out at County Commissioners' office.

Letter, as received from Paul F. Ware, M.D., relative to when a hearing is to be held concerning the proposed Route 110, noted by Board tonight.

Zoning Permits were then granted the following:

Louis A. & Mildred M. Perricotti - Additions to home on Newton Street.

UNANIMOUSLY VOTED: that the Town settle with the Markel Service, Inc. (Re: damages to stonewall and sidewalk at Routes 30 and 85) for Seven Hundred Twenty-five (\$725.00) Dollars. Release on same duly-signed tonight.

Also building on Highland Street on the Hubley land, for which no Zoning Permits have been issued. A letter is being sent the Deerfoot Meat Packing Company, relative to its needing a Zoning Permit to build. (Chief Mattioli appeared for a short time and told the Board that he would look into the house as being built by Mr. Henry Mitchell--letter to said Mitchell is being held up). According to Chief Mattioli, the Marlboro Cruiser had a 'Green Light' at Fayville, and was smashed into by another car at the Traffic Lights, in Fayville, that they have a witness to this, that a telephone call went out from Ted's Auto Service, who thought said cruiser was the Southboro Cruiser. Howes, Town Counsel, who was called in to discuss the request of Community Housing Corporation, relative to the Board's signing certain letters addressed to the Veterans' Administration, certifying the conditions of the so-called Bryden Road, Harris Drive and Moulton Road, as being acceptable to the Town, so that the Veterans' Administration will be assured the prospective buyers of houses under the VA, will be entitled to all services by the Town, and that the VA may go ahead and issue mortgages for said buyers. Later, a discussion between the Town Counsel and Board of Selectmen, ensued. The Town Counsel pointed out that what Mr. Swartz, (president of Community Housing Corp.) was asking, was no more than a statement of fact that the subject matter of the letters was already approved on the approved sub-division plan, and that he could obtain the necessary written approval by requesting from the Town Clerk, a certified copy of the sub-division plan and a certified letter, stating that the conditions as they appear, on the approved plan are actually on the plan. burden and more work on him (Swartz). Mr. Hill entertained a motion that said letters be signed--seconded by Selectmen Burke. Mr. Adams not in favor of same.

A very lengthy discussion ensued, relative to the drainage condition which presently exists in the southern part of the town. The possibility of taking the woolen-mill property by eminent domain considered. Mr. Howes said if the said property was taken by eminent domain, that all value of property would be lost to the owner. It was finally agreed by all present, that Mr. Howes, as Town Counsel, would look into the matter and talk with Mr. Devine, present owner of the old woolen mill, also that the M.D.C. be approached to see what, if anything, could be done to alleviate this terrible drainage condition.

Zoning Permit application from Mr. Raymond Peacock, Ashland, to build on a parcel of land located on Fisher Road, and to divide said land into three lots discussed. The Town Counsel ruled that such a request would be a subdivision. Said application is to be submitted to the Planning Board.

The Board VOTED to transfer the Zoning Permit to Mr. Peacock, as granted Mr. James S. Hanagan, presently residing in Marlboro, on November 30, 1957, to that section as shown on Mr. Hanagan's original plan whereby his proposed house would face Fisher Road, and that if said Peacock decides to subdivide, persons owning said lots would have to apply for separate Zoning Permits on same.

He is to further investigate this matter.

However, due to a misunderstanding, said K of C did not contact the Board of Selectmen, requesting said Article to be placed in said Warrant. Counsel advised the Board that what Mr. Honen wanted to do would be in violation of said Zoning Laws, since he (Honen) stated it was his intention to "branch out" and he hoped that eventually to employ fifteen (15) to twenty-five (25) men. (See Section IV, Paragraph 3d) UNANIMOUSLY VOTED: DISAPPROVED.

9:50 P.M. Then appeared Mr. George Swartz of Community Housing Corporation, and R & S. Construction Company. The Board discussed, further, the leasing of land from the R & S Construction Company, for the Town dump. Mr. Swartz explained that he believed Mr. Pessini, Highway Superintendent misunderstood him, as he gave him permission to go back as far as he wanted, that he (Superintendent) would have to keep open the Parkerville Road entrance, however. The Board told Mr. Swartz that a letter of agreement would be forthcoming. Mr. Swartz was most agreeable to the Board's wishes on this matter.

Discussion then turned to Mr. Swartz's Zoning Permit applications to build on Lots #30 and 31 on Flagg Road. Mr. Swartz stated that he had received a note from Mrs. Goodnow, Secretary to the Board of Health, to the effect that her Board had rejected Permits to Lots #30, 31, 33 and 34, facing Flagg Road. Mr. Swartz explained that "perc" tests in the presence of Mr. Mortimer, Inspector for the Board of Health, had been made, and that said tests through entire area "had proved satisfactory". After Mr. Swartz's explanation, the Board felt that, since said Lots face an accepted way, viz; Flagg Road, such Permits, if all requirements are met, should be granted. A joint meeting with the Board of Health and The Board of Selectmen, is to be set up for Wednesday, May 6, 1959, at 8:30 P.M. for the purpose of discussing above-mentioned Lots on Flagg Road.

The Board also,

Thirty-five (\$3500.00) dollars was considered as a first price to be asked for said School.

Single Bid, as received from Gannon Motors, relative to the Police Cruiser, discussed. Town Counsel Howes, stated that since the Board requested bids on a six and an eight cylinder, and also because of the fact the Police Chief had been informed that an eight cylinder is much more economically run than a six cylinder, he (Town Counsel) while not being "firm" on this,

could not see why said bid, as received from Gannon Motors be awarded to the only bidder, viz; Gannon Motors.

Selectman Burke than made a motion that the Bid of the 1959 Police Cruiser be awarded to Gannon Motors, Westboro in the amount of \$1380.00 plus 16.15 for special body equipment, plus 56.00 for special police chassis equipment, said amount (1452.15) including allowance for the 1958 Police Cruiser's being turned in. Regarding Towe, Town Counsel stated there is a new Statute whereby the Selectmen may require that said tower be taken down. He (Town Counsel) also asked Selectman St. Maurice if the Flash Boards had all be taken down and his answer was "NO". Town Counsel to look into above-mentioned matters.

A Also, said Elkin is being notified of the Town's requiring the posting of Bond at \$25,000.00 and that inspection and supervision by the Highway Department Superintendent or his Agent is also being required and that said Inspector or Agent is to be paid by the Developer.

Here Mr. Kunen interrupted and stated to Officer Pietrasiak, "now you are assuming that these people to whom these cars belong were not employees." Officer Pietrasiak: "I am not assuming that--I saw the people get out of their cars". Officer Baker, as well as Officer Banks reported many times having had to go to Club 85, after hours, and tell people in said Club to leave, citing one case, in particular when he (Officer Baker and Officer Pietrasiak actually went into Club 85, Inc. at 2:00 A.M. eight to ten people inside and told Mrs. Hilton, Manager that the people would have to leave--returned to said Club 85 ten minutes later

and three people were still remaining inside said Club 85.

Officer Baker stated at his meeting that after he had told Mrs. Hilton to have the people leave, he was told by said Mrs. Hilton that it was a "birthday party", that owner "cracked a smile as if it were a big joke." Officer Baker also reported that he had taken four (4) registration numbers on those cars that were parked outside of said Club 85, Inc. on this particular morning viz: April 8, 1959, at 2:00 A.M. It was brought out at this hearing that at one of the times when said Club 85, was apparently selling liquor, viz: 4/23/59, 1:45 A.M. there were two Mass. cars and one from the State of Ohio. Registration numbers also taken by Officer Fred L. Baker, Jr. On May 1, 1959, Officer Baker checked cars at Club 85, Inc., 4:30 A.M. and reported they were there all night. This past Friday evening Officer Baker stated it was the first time he saw the Rules and Regulations re: sale of liquor directly in back of bar. Mrs. Hilton stated "I was not the party that put it (Rules and Regulations) there--I hadn't put it there because it has been there since the first of the year. Lawyer Kunen very strongly argued that the Police force could not determine whether or not the people seen going into the Club 85, Inc. were "patrons" or "Friends." Selectman Burke asked Officer Baker if those cars on which he had registration numbers, did he (Officer Baker) know persons owning such cars. Officer Baker replied there were at least five owners of cars on which he had the registrations, that "I actually know." Selectman Burke then asked Officer Baker, "to your knowledge are they employed at Club 85?" "No", "they are not", stated Officer Baker. Attorney Kunen asked Officer Baker to give a definition of the word "Patron". Officer Baker replied "anyone who is not employed." Mr. Edward Orzeck, who stated he lived next door to said Club 85, Inc. told all present that he was being constantly disturbed by the cars, which have been leaving said Club 85, Inc. in the early hours of the morning, that he considered said Club 85 detrimental to the neighborhood, that he had children and objected to said Club's being in the neighborhood. He cited one occasion when he was awakened at 5:30 in the morning, that a car was "pulling out", that another car was there also, with parking lights on, and that at about 6:10 A.M. car with parking lights on was driven off in the direction of Southborough. Said parking lights, however, had been turned off by man who drove away in said car. Mrs. Hilton stated, "I have never sold after hours". Mrs. Hilton also stated that she had only one (1) employee besides herself, that she does hire a part-time employee. Chairman Adams then questioned if there was any one else present who wished to speak either for or against said Club 85. Said hearing closed at approximately 8:38 P.M. Persons informed disposition of same to be taken under advisement.

8:40 P.M. Then appeared Mr. and Mrs. Roland Chenard, East Main Street, to again voice their objections to an alleged machine shop as being run by Herbert Cook in his home, in the basement of same. The Chenards contended that Mr. Herbert Cook was conducting his business prior to the Zoning Laws and that such business (machine shop--running lathe and screw machine) is non-conforming. Mrs. Chenard also stated, "we have lost the use of our back yard, that Mr. Cook has a "Screw Machine in his cellar" and that manufacturing is not a home occupation." Selectman Burke asked Mrs. Chenard if she was registering a complaint and she said she was, that if the condition continues, she feels that, since she is in a Residential District, she should have her taxes abated. Selectman Burke asked Mrs. Chenard if she was also registering a complaint of Mr. Binder. She answered, "we have lost our back yard." The Board concluded that it must be established whether or not Mr. Cook was operating a business prior to the Zoning Laws. Selectman St. Maurice suggested having Mr. Cook come to a meeting and to show evidence that he (Cook) had a business prior to said Zoning Laws.

Mr. Cook is being asked to attend a meeting of the Board next Wednesday, May 13, 1959, and to show cause why he should be allowed to operate said machine shop.

9:10 P.M. (This appointment had been set up for 8:30 P.M. but due to Liquor License violation of Club 85, Inc., all appointments, as set up for tonight's meeting, were not held on time.)

At the above-mentioned time of 9:10 P.M. members of the Board of Health, including Mrs. Ruth Goodnow, and Dr. Timothy P. Stone appeared, and a discussion ensued relative to Lots #30 and #31, on Flagg Road, as owned by Community Housing Corporation or R & S Construction Co., Inc. (Said R & S Construction, Inc., had also, some time ago, applied for Zoning Permits on Lots #33 and #34 on Flagg Road, but had been withdrawn, as so stated by Mr. George Swartz, President of above-mentioned Corporations, since the proposed road of his sub-division is to be changed. Said sub-division known as "Clearview Acres or Strawberry Hill". Mrs. Goodnow stated that the Board of Health has "turned down" Lots #30 and #31 on Flagg Road because of the "water table's" being too High and must be lowered. Dr. Stone also stated "water table will have to be lowered". Mrs. Goodnow reported that McCarthy Engineering, through Mr. Veo, wanted to know why said Lots were turned down, that she also told same of the high water table. Dr. Stone brought out the point that the Town may have trouble with the M.D.C. Mrs. Goodnow stated that if the Board Granted these Permits, Town "would be in trouble." There is a question in the minds of the Board of Health where all drainage is eventually going to be emptied. (Mr George Swartz had stated at an earlier meeting with the Selectmen, that all drainage would eventually go onto his land) Mr. John Bartolini, also a member of the Board of Health, who appeared at approximately 9:25 P.M. introduced the possibility of using a "French" drain.

9:35 p.m. Then appeared the Water Commissioners, including C.E. Baker, George Mooney, Water Superintendent, Thomas Boland, and Mr. George Swartz of R & S Construction or Community Housing, with his engineer, John Tosti. Present also was Town Counsel, Alfred W. Howes. It was brought out at this meeting (joint) with the Selectmen, that the Water Department is desirous of installing a water main on Richards Road, that said R & S Construction or Community Housing Corporation desires a Permit to Open and Obstruct said Richards Road in order to connect a water main at Leonard Drive, that the Highway Department wishes to wait until the Selectmen have heard from Whitman & Howard, Engineers, in order to find out what size pipe must be installed for the drainage on said Richards Road, as an appropriation of over Twelve Thousand (\$12,000.00) Dollars was voted at the Towns Annual Meeting for said Richards Road, also that the Town does not wish to have to dig up said Richards Road twice, since said Whitman & Howard, Engineers are making a drainage survey for the Town. Also, that the Highway Department wished to obtain information from said Howard and Whitman concerning grades on said Richards Road. Brought out at this meeting also, was the fact that the distance for laying said pipe is six hundred (600) feet more or less. Since the above-mentioned corporations, R & S Construction or Community Housing, are going to install drainage, the Board felt that perhaps said Corporations equipment could also install said drainage on a portion of Richards Road. Highway Superintendent Pessini was asked to obtain at least two (2) other Bids, as drainage work would possibly be put out on contract. Superintendent Pessini reported that the State Engineer recommended "24 inch" pipe down at bottom of Richards Road. The Board agreed that the Town Counsel would draw up an agreement to Open and Obstruct said Richards Road, for said R & S Construction Co. or Community Housing Corporation. It was also agreed that R & S Construction Co or Community Housing Corporation, Mr. Swartz being President of both corporations, would be allowed to complete Harris Drive, so-called, and Moulton Road, so-called, before doing Richards

Road, and that the reason is that said drainage is going to be installed before the water pipe, and that they above-mentioned corporations, one or the other, would then come back and complete Richards Road.

Letter, dated 4/23/59, as sent to the Water Commissioners, relative to the condition on Parkerville Road, as left by the Water Department, brought up. This letter requested something in writing, Commissioners agreed at this meeting that the compressor, operated by the Water Department, would be used to break up certain boulders, as left on the side of the road by said Water Department. Selectman St. Maurice stated that when departments do work on roads, they should be responsible for such work, leaving said roads in good condition when the work is finished. It was agreed, that, after the breakingup of said boulders by the Water Department, the Highway Department would carry same away.

Inventory of Water Department discussed. To give in said inventory as of January 1, 1959.

Motion made by Selectman Burke: I move that the License of Club 85, Inc. be suspended for a period of fourteen (14) days, said suspension to be held in abeyance until such time as the Board receives an opinion from the Town Counsel regarding the manner and procedure this suspension should be carried out. Motion seconded by Chairman Adams and made unanimous by Selectman St. Maurice. Town Counsel to check with the A.B.C.

Liquor License of the Southborough Lobster House discussed. Mr. Howes advised the Board said Lobster House's License could be revoked by revoking its Common Victuallers License, that, at present the State has a lien on it, since said Lobster House is again in arrears and have not paid its Meal Tax.

Cordaville Woolen Mills again discussed. (It had previously been reported that said Woolen Mills tank was in a poor state of repair and possibly causing danger to the neighborhood) Mr. Howes stated that he believed the Town would have to accept Chapter 139, Sections 1, 2, and 3, the Selectmen could then go ahead and demand said tank be taken down.

Walnut Hill Road discussed. "You can't take any land--have to have two-thirds Vote by the Town to take land by Eminent Domain", stated the Town Counsel. You can stay within the walls stated Mr. Howes.

Selectman St. Maurice brought up the matter of an assistant clerk to the Selectmen's Clerk. (Last week the Selectmen's Clerk again brought to the attention of the Board, the need for assistance, as the work has increased a great deal in that there are many more services being demanded of said clerk, by the Boards and by the General Public.) Selectman St. Maurice told the Board members that he had talked with the Chairman of the Advisory Committee and the Personnel Board with reference to Selectman's Clerks' request for assistance. Selectman St. Maurice then handed to the Chairman of the Board a memo directed to the Chairman of the Advisory Board, as composed by him, for perusal and approval by the Board. Then the Chief brought up the matter of his going on Life Tenure. The Chief brought out the point, that under the present set-up, there is no security. He stated that he would like it (Police jurisdiction) out of the Selectmen's hands. Chief Mattioli told the Board that he had talked with a Representative and that he was advised to have the Selectmen write a letter, stating they were not opposed to it (tenure) and not opposed to having it put on the Ballot. Chairman Adams stated, "I think it will be alright". Selectman Burke stated that he had talked to the Chief about it and that he (Burke) believes the Chief is a "little bit previous". Mr. Burke believes the Town is not, as yet, ready to have its employees, such as Police Chief, Fire Chief, etc., on tenure basis. He stated he is not against tenure. Mr. Burke explained that the land in question (Paton's property) would be properly put back after said gravel had been removed, seeded, etc. by the Town of Southborough. It was brought out that some persons present, were under the impression Mr. Paton was going to start a "business", which Mr. Paton denied. Mr. Burke explained that if Mr. Paton sold any gravel, other than to the Town of Southborough, he would be "in business" and that would be in violation of the Zoning Law. Mr. Pessini, Highway Superintendent, who was also present, was asked if the State had accepted the gravel. Mr. Pessini stated it had been tested and accepted by the State. It was brought out that the Chief of Police, in office at the time, is the only person to be on tenure, that his successor, if he so wished tenure, would have to apply for it in the same manner as his predecessor, that there is no change in the police department itself. Chief Mattioli told the Board that he wishes to have the question relative to tenure for himself, placed on the Ballot. The Chief asked if he could obtain a letter from the Board of Selectmen, stating that they (Selectmen) were not opposed to having said Life Tenure, placed upon the Ballot. The Chief then reported that various items had not, as yet, been transferred to the new Police Cruiser.

Chairman Adams asked Mr. Kadra, "do you think that the Appeal Board would appeal on something like this?" "No", stated Mr. Kadra. Discussion ensued as to whether or not the Street Superintendent could use Chapter 718 money which was allotted for the construction of Walnut Hill Road, to help pay for the cost of several tires to the Town's Highway trucks, as a result of work which had been done on said road.

According to letter received from the Town Counsel, said 718 money may be used for Chapter 90 work next year, should there be an unexpended balance. BOARD VOTED: charge up equipment used on Walnut Hill Road to Chapter 718 and transferred to Road Machinery Fund. Board also VOTED that balance be checked out with State Engineer Benedict to see if money for said tires of said trucks can be paid out of 718 funds. New road sweeper discussed. (The sweeper as first discussed, to be attached to the new Oliver Tractor cannot now be purchased.) It was reported that Mr. Davis of Davis Tractor Company was to "make up" a sweeper for said Oliver Tractor. MR. Pessini then told the Board "Lorraine isn't making any more Olivers" (tractors). Messrs. Harrington, Topalian and Falconi, of Board of Appeals, and Mr. Paton appeared at 8:00 P.M. to discuss reasons for Selectmen turning down Paton's gravel Pit request. The Board stated that it was of the opinion that as soon as we purchased on load of gravel, Mr. Paton would be conducting a business in a residential area. Town Counsel has so advised the Board.

Mr. Homer L. Bates, Director of Civil Defense, appeared and requested permission to borrow Department Inventory Lists so that he could have copies made. Permission granted and lists turned over to him with stipulation that they be returned by next meeting.

Mr. Bates is to set up meeting for Selectmen to make presentations of First Aid-to-Injured Awards to 21 regular, special and auxiliary police.

MINUTES OF MEETING
BOARD OF SELECTMEN

July 22, 1959

Present: Chairman, Henry B. Adams, Selectmen, Philip W. Burke and Arthur J. St. Maurice and Town Accountant, Fred L. Baker, Sr.

Warrant #32 in the amount of \$10,995.66 signed and sent to Treasurer.

Police report read and placed on file. Chief did not appear at this meeting. Chief Mattioli to be reminded that flag should be raised and lowered by on-duty patrolman. Selectman St. Maurice stated that flag was up on night last week until after 9:00 P.M.

Mrs. Day, Woodbury Road, appeared and requested a street light by her home. No pole at this location. Mr. Burke is to investigate and report at next meeting. Mrs. Day reported that because she is at one end of power line, lightning storms follow power lines and damage her property as well as neighbors.

John Bartolini appeared, with all approvals necessary for Selectmen to grant Zoning Permits for 4 locations on Breakneck Hill Road and one at end of Town right-of-way off Oak Hill Road, leading to standpipe.

Robert McNair, Harry Leland, John Madden, Leo Masselli, Robert Playdon and Werner Steurnagel, all of Mitchell Street, appeared to discuss condition and possibility of starting work on said street. At a meeting on Monday 7/20/59, of residents of Mitchell Street, Selectmen Adams and St. Maurice, Superintendent of Streets, Mr. Leo J. Pessini and Mr. Ward, the residents were shown the stakes as put in by Mr. Ward's men and it was explained that these stakes were the bounds of the 40 foot town road. At this meeting, Monday night, some of the residents were under the impression, that the Town was to relocate the road in center of 40-foot taking. This is not the understanding of the Selectmen. It was fully explained that the street was to be moved as little as possible, but it would be relocated so as to bring the entire street within the 40-foot taking. Some of the residents, particularly those on the right side, going east, would lose some of the land that they are now using, but it is the intention to disturb them as little as possible consistent with relocating the road so that Chapter 81 money could be obtained. The six men in attendance at tonight's meeting signed that they wanted the work to go ahead within the Town's 40-foot taking and they all understand what the relocation will mean to them as well as abutters. Selectman Burke is to contact Mr. Ward and ask him to have final plans ready for discussion at our next meeting, 7/29.59 at 7:15 P.M.

No letter from Louis Martino, Southborough Lobster House, was received stating his intention to reopen said Lobster House and it was therefore UNANIMOUSLY VOTED: that the full Liquor License now held by the Southboro Lobster House, be cancelled. Chief Mattioli is to deliver letter of notification to Mr. Martino and pick up the License.

It was UNANIMOUSLY VOTED: that the License formerly held by Southborough Lobster House be issued to White's Corner Restaurant, Frank Rossi, proprietor. Selectman St. Maurice stated that he had received a request for street lights on Leonard Drive. Clerk to notify Electric Company.

Selectman Burke brought up conditions of water from Atwood Street flowing down through school yard and across Highland Street into Mr. Cox's garage. Leo Pessini to look into matter and see what can be done.

Custodian Benedict Maguire requested combination screen and storm window for

Town Treasurer and Town Clerk's office. VOTED: to have same installed. Mr. St. Maurice to contact manufacturer in Northboro.

Philip W. Burke, Clerk Pro Tem

Mary F. Finner
Clerk to the Board of Selectmen.

A lengthy discussion concerning Mitchell Street, again ensued. Mr. Pessini informed all present that the State wants to have a "20-foot traveled way". The possibility of having to request Easements from Maselli, Steurnagel and Playdon considered. Mr. Ward suggested staking out said Mitchell Street, notifying all persons involved, so that they may see for themselves just what has to be done. Superintendent Pessini stated that his Department has all necessary equipment to do the work required on said Mitchell Street, with the exception of a backhoe. It was finally agreed, that if Mr. Ward was able to put in the grade stakes, the Board would meet next Wednesday night at 7:00 P.M. up on Mitchell Street and investigate same.

8:25 P.M. Then appeared the following:

Ralph L. Dyer	" "
Edward L. Kehew	" "

Discussion ensued relative to the making of offices in the lower Town Hall. (Voted \$1500.00 at Special Meeting of September 8, 1958). Possibility of over-all plan for offices in the lower Town Hall suggested by Dr. Stone. Mr. Dyer in favor of said suggestion.

8:30 P.M. or thereabouts, Town Counsel, Alfred W. Howes, appeared.

Discussion on over-all plan continued. Town Counsel asked, "Where will they vote?" Small room and one conference room considered. All present scanned over-all plan of Town Hall, as brought to the office by Town Clerk, tonight. It was finally agreed and UNANIMOUSLY VOTED: that two (2) offices be erected on the East side of the lower Town Hall conforming with Plans as submitted by John Concannon and that the partitions for said offices would be installed by members of the Planning Board. It was also VOTED that said partitions be set up on "legs". Cost of same to be approximately \$700.00, this includes a twenty per cent (20%) discount. Possibility of purchasing twelve (12) chairs similar to those presently in the Selectmen's office considered. Personnel Board through a letter from Selectmen to Mr. David Aldrich, had been notified of this meeting--no one from said Board appeared.

License of Southborough Lobster House, which has just been cancelled recently discussed. (Mr. Martino did not release said license to Chief Mattioli when letter dated July 28, 1959 was personally taken by Chief Mattioli to said Martino notifying him (Martino) of the UNANIMOUS VOTE of cancellation, by the Board, of said License, on July 22, 1959)

Because of the foregoing facts, the Board UNANIMOUSLY VOTED: that a letter of Demand be sent said Martino, for the return of said License.

UNANIMOUSLY VOTED: that notice of said application be published, at the expense of the applicant, in the Worcester Evening Gazette of August 1, 1959. (It was UNANIMOUSLY AGREED at a meeting of the Board of Selectmen on July 22, 1959, that should this license become available, said license be granted to said Frank J. Rossi.)

The removal of Loam on Flagg Road, without a Permit, by Mr. Angelo Rocco of "51 Reservoir St., Methuen, Mass.", discussed. (Mr. Rocco had been notified on July 10, 1959, that his verbal request for such a permit had been disapproved.)

Selectman St. Maurice reported at his meeting that said Rocco had removed more loam. The Town Counsel told the Board the cheapest thing to do is to make a complain against said Rocco the other alternative being to bring a "Bill of Equity", enjoin him (Rocco) for removing loam without a permit. It was finally agreed that a complaint, through Police Chief Mattioli, be made in District Court, Westboro, against said Rocco. Chief is to be so notified. Possible cost to the Town, it is felt by the Board, will be Two Hundred (\$200.00) Dollars.

Zoning Permits granted: Gertrude McCullough, House, Flagg Road, Lot #12.

Mr. Rossi told the Board that if the word "Inn" was taken off sign, as presently erected on the front lawn of said Southborough Arms, Mr. Leary would not be in violation, that the only words which may be substituted are: Lodge and Manor, that Mr. Leary has no other alternative.

Southborough Lobster House, Inc., discussed. Mr. Rossi told the Board that it may issue, under Section 12 of the Liquor Control Act, a license (All Alcoholic) in place of a Club License, to the same licensee. The Board notified Mr. Rossi that it had cancelled the Southborough Lobster House's All Alcoholic License. (Under date of July 27, 1959, Mr. Frank Rossi, through his attorney, resubmitted his application for an all-alcoholic license). Said application was published in the Worcester Gazette of Saturday August 1, 1959. After discussion with Mr. Rossi, it was brought out that no abutters have to be notified relative to said Frank Rossi's application for said all-alcoholic beverage license.

8:40 P.M. Then appeared Mr. Paul J. Redmond, Insurance Broker for the Town. Mr. St. Maurice reported that some attending this meeting last Thursday evening, August 6, 1959, felt that lobbying is going on in order to get the M.T.A. to come out all the way to Framingham. Selectman St. Maurice stated that Mayor Whitmore is to notify Town officials, at a later date, when another meeting is to be set up.

7:40 P.M. or thereabouts, two members of the Planning Board Mr. Philip C. Beals and Mr. Napoleon Barber appeared and a discussion ensued concerning John and Mitchell Streets and the proposed new development of James Trioli, in the area of said John and Mitchell Streets. Relocation of Mitchell Street and where it is going to tie in with John Street, discussed. Selectman St. Maurice told the Planning Board, that the Town of Framingham has incorporated in its Rules and Regulations of its Planning Board, the construction of berms on the sides of all new roads to be built. Mr. Beals was in favor of having the same incorporated in the Planning Board's Rules and Regulations.

8:00 P.M. Then appeared Police Chief, Francis J. Mattioli, handing in his bi-weekly report from July 19th through August 8, 1959. Report accepted. In his report, the Chief stated that forty-nine (49) turkeys had been destroyed by dogs unknown, that it was believed there were three (3) dogs involved, that he (Chief Mattioli) saw seventeen or eighteen of said turkeys which were badly torn, that said turkeys are worth Four (\$4.00) each. Chief Mattioli then reported that Club 85 is under surveillance by the State Police, that girls, believed to be from Worcester, have been seen at the Club, then going away with persons who have been stopping at said Club. Chief Mattioli spoke of another case where a "Sergeant Regan" has been detailed to ask about Club 85, that he, Chief Mattioli gave said Sargeant, numbers of cars which have been seen at said Club 85, and that said Regan is going to check on same. Chief Mattioli reported that he was informed that business had "suddenly picked up in Westboro" that these same girls are believed to be the same ones coming to Club 85, and that they are coming out of Worcester, that since Westboro is now being kept under surveillance, said girls are coming to Southborough.

Chief Mattioli then reported the case involving a thirteen year-old girl from Hopkinton and five (5) boys from Southborough, between the ages of 12 and 15. (Police Chief Boker, of Hopkinton came to Selectmen's office the afternoon of August 12, 1959.) Also came to the Town Hall, was Mrs. Mary Kirkpatrick, State Police Woman, with reference to this case. Chief stated that Police Woman Kirkpatrick talked yesterday with the parents of these boys. Said Hopkinton girl, reported Chief Mattioli, has disease--boys were examined--some were found clean--one is being given penicillin, for three (3) weeks. Girl has been taken to the Westboro State Hospital, reported the Chief. The Chief concluded by stating the Police are trying to determine who contracted this disease (gonorrhea), that same probably was from "older person".

Chief reported another case whereby a man on Southville Road tried to force a girl from Southborough to get into his car. Investigation is also being made.

It was brought out at this meeting that the two full-time patrolmen are interested in driving school buses to and from the new Regional High School. Selectman Burke strongly questions as to whether or not said Patrolmen can do this work since they are on twenty-four duty. Selectman St. Maurice asked if these men were on day or night. Chief answered "they switch". It was finally agreed that said Patrolmen come in and talk situation over with the Board.

Complaint, as filed against Angelo Rocco, set for August 21st. Original complaint filed as of July 6, 1959.

Drainage condition at home of Charles Sawin, Richards Road discussed. It is the feeling of the Board that the Town cannot do anything about same.

Common Victualer's License also granted Frank J. Rossi, as manager of White's Corner Restaurant.

Zoning Permit granted Glenn Davis, to build addition to his present garage located on Richards Road.

Selectman Burke reported that he called the Worcester County Office regarding bounds and was told they have nothing more than a pencilled sketch of Middle Road, from Main Street to Parkerville Road, that in 1856, Town voted to accept Middle Road (Page 111), that in 1860 "certain alterations were made". Board agreed very necessary that Bounds must be set up for Middle Road.

Application for Club License as submitted by Joseph Novick, noted by the Board tonight.

Application for an all-alcoholic license, as submitted by Louis Martino, noted by Board tonight. Said Board felt that since only all-alcoholic license has been granted Frank J. Rossi, and none other being available, Mr. Martino would have to bear the expense of advertising, etc.

Meeting adjourned at 9:56 P.M.

The above-mentioned "turnaround" was approved some time ago, as a "Temporary" turnaround. However, it was fully explained, and thoroughly understood by both gentlemen (Kusava and Gehant), at this meeting, that the Town of Southborough still holds the right-of-way to this "Temporary" turnaround, when Harris Drive so-called, has been accepted, and is in no way relinquishing any of its rights to the FULL TURNAROUND. It was UNANIMOUSLY AGREED by all Board members that said gentlemen, if they so wished, may use this land and seed it down for lawns, and that the Town will not be liable should any part of the above-mentioned ten feet be cut off by snowplows, or otherwise damaged.
